Child Abuse and Neglect

Children who attend our program are cared for, nurtured, and kept safe at all times. Child abuse is a very serious allegation; policies are intended to protect both the children in our care as well as colleagues at the center.

It is the center's goal to employ childcare professionals who are committed to the highest standards of ethical behavior. To ensure the health and safety of young children in care, a policy of "Zero Tolerance for Child Abuse" is strictly enforced. Children at the center should expect to be treated with kindness, concern, and respect at all times. An employee who exhibits unprofessional behavior that could be construed as abusive in any way may be dismissed from work without accrued benefits or assistance in legal representation. Any evidence of physical or sexual abuse or misconduct will be grounds for immediate dismissal. Any person who has information about behavior that may reasonably be characterized as known or suspected abuse or neglect shall make a report to a director and to appropriate authorities, as required by law. Allegations of abuse shall be reported to parents and investigated. Any employee accused of abuse or neglect shall have an opportunity to respond to the allegations. Until the issue is resolved, an employee suspected of abuse or neglect may be reassigned, suspended, or placed on administrative leave, either with or without pay, at the discretion of the director. If any staff member suspects a child may be the victim of child abuse or neglect either by another staff member or outside the center, we as child care providers are

obligated to report this to proper authorities. We ask that the concerned party first come to a director either in person, by phone or email as soon as you have any suspicion. We will decide together what would be the best direction to take the issue and possibly contact the *Child Abuse & Neglect Hotline at 1-800-652-1999* for a further investigation.

Education Explorers staff and management will not tolerate any child abuse or neglect and report suspicions that include but are not limited to: Unusual bruising, marks or cuts on the body, Severe verbal reprimands, Improper clothing cleanliness, Transporting a child without proper restraints, Dropping off or picking up a child under the influence of alcohol or illegal drugs, Children who exhibit behaviors consistent with an abusive situation

If we are made aware of a crisis in the area, our center will go into immediate lockdown, an email will be sent out to all the parents to inform them that no one

will be allowed into the center (including parents) until safety is assured. If we are unaware and caught off guard, we will alert the classrooms immediately. The teachers will barricade their doors with the classroom tables, and the teachers will make a decision whether to hide in locked spaces or to escape through their fire exit doors. We will be practicing our crisis procedure along with our annual fire and tornado drills. During any of these unfortunate events we will send an email out to all of our families updating them on our current situation and let everyone know our plan of action. We, at Education Explorers Learning Center pray these circumstances never arise; however, in the event that they do our team will be fully prepared to ensure the safety of all.

Confidentiality

As professionals it is our obligation to keep information regarding the children and their families confidential. Each child's records are open to the primary teacher, parents, administration, and licensing. With this commitment to confidentiality in place, the center will be a place of security and trust. All files are the property of Education Explorers Learning Center.

Phone use to the director, staff, and the use of brightwheel to communicate to families is permitted within professional guidelines.

Grievance Policy and Procedure

Any staff member, who has a concern about some aspect of classroom operation or policy, should first discuss the matter with the lead classroom teacher. If the lead teacher cannot resolve the concern independently and to the satisfaction of the staff member within 24 hours they may verbally bring the matter to the attention of a director. If the director is unable to arrive at a solution satisfactory to those involved, within 24 hours the director will verbally bring the matter to the attention of the owners. For convenience and expediency, the director may ask the staff member to present the concern to the owners. If a staff member brings a concern to the owners without first consulting with a director, the owners will ask the staff member to first confer with the lead teacher or director as appropriate. A grievance may be filed in writing followed by an appointment to review the grievance. At any time during the above process, a grievance may be filed in writing, and submitted to the appropriate individual in the designated chain of command. This will be followed by an appointment to review the grievance within seven (7) working days by the lead teacher, director, and/or owners as appropriate. The owner's action regarding the grievance is final.
